TILE CLEANER

It is a safe and easy to use. Cleaner for all ceramic, porcelain, vinyl, laminate and sealed natural stone floors. Kills germs and bacteria. It leaves fresh scent it leaves floor and wall tiles sparkling clean. Available in 5L containers.

CHLORINE

Chlorine kills bacteria though a fairly simple chemical reaction. The chlorine solution you pour into the water breaks down into many different chemicals, including hypochlorous acid (HOCl) and hypochlorite ion (OCl⁻). Both kill microorganisms and bacteria by attacking the lipids in the cell walls and destroying the enzymes and structures inside the cell, rendering them. Also they are available in 25kgs

CHLORIDE OF LIME

Used in cleaning of food troughs for dogs to kill germs, also used to kill germs by council workers after blocked drains.

FLOOR STRIPPER

This powerful formula creates a protective layer on the floor that also helps reduce the chances of the floor being damaged and warped by moisture or water damage. The stripping and waxing process also helps improve floor maintenance.

POOL ACID

It can be used to clean and remove stains from the sides and bottom of an in-ground pool. Specifically, this is done through the use of muriatic acid, water, a scrubbing brush, and a neutralizing soda ash. If you have an in-ground pool that has seen better days, you may want to consider having professional acid washing done for a number of reasons.

Here are 3 Main Benefits of Acid Washing Your In-Ground Pool.

- Add Resale Value/Appeal
- Remove Stains and Calcium Deposits
- Save Money on Replastering

Also available in 5L containers
